

Pi Pharma, Inc. believes there is a necessary symbiosis between our company and all of the people and organizations involved in making, and keeping, our business possible and profitable. The above diagrammatic representation shows the need for all entities to be connected for this to happen. This is also why we have chosen **Pi** Pharma as our name since (π , π) is a God-given-universal-mathematical relationship absolutely necessary in the understanding of a circle. The above circle can also be a chain where each link is important to complete the circle. If any point or link is removed it would destroy the circle resulting in a straight line a limited single dimensional object that does not connect with itself.

We are all capable and should work together to make this a more healthy, safe and happy world!
